

## Assured Edge® Advisory

A fixed annuity with a flexible guaranteed lifetime withdrawal benefit

### Know today what your retirement income could be

The maximum amount that may be withdrawn each contract year under the flexible guaranteed lifetime withdrawal benefit (GLWB) is referred to as the guaranteed lifetime income amount (GLIA).

The GLWB is automatically included in the contract for an annual fee of 0.95%.

Here's a hypothetical example of how the initial GLIA is calculated:

$$\begin{array}{c} \$100,000 \\ \text{Eligible premiums} \end{array} \times \begin{array}{c} 7.80\% \\ \text{Single coverage} \\ \text{Age 65} \end{array} = \begin{array}{c} \$7,800 \\ \text{Initial GLIA} \end{array}$$

For each year that you wait to activate lifetime income, your GLIA grows by an income credit.

Here's an example of how the annual income credit is calculated:

$$\begin{array}{c} \$7,800 \\ \text{Initial GLIA} \end{array} \times \begin{array}{c} 8.5\% \\ \text{Income growth rate} \end{array} = \begin{array}{c} \$663 \\ \text{Income credit} \end{array}$$

Here's an example of how the GLIA is calculated when income is activated at the end of year five (assumes no withdrawals):

$$\begin{array}{c} \$7,800 \\ \text{Initial GLIA} \end{array} + \begin{array}{c} \$663 \times 5 \\ \text{Income credit x} \\ \text{deferral years} \end{array} = \begin{array}{c} \$11,115 \\ \text{Per year} \end{array}$$

Withdrawals other than the GLIA or a change in covered person(s) may affect the GLIA. See the product overview or brochure for details.

\* Income percentages and the income growth rate are periodically set by the company and may be different as of the date a contract is actually issued. Rates will be displayed within the contract and are guaranteed not to change.

Annuities are long-term products designed for retirement.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.

## Assured Edge® Advisory

A fixed annuity with a flexible guaranteed lifetime withdrawal benefit

### Know today what your retirement income could be

The maximum amount that may be withdrawn each contract year under the flexible guaranteed lifetime withdrawal benefit (GLWB) is referred to as the guaranteed lifetime income amount (GLIA).

The GLWB is automatically included in the contract for an annual fee of 0.95%.

Here's a hypothetical example of how the initial GLIA is calculated:

$$\begin{array}{c} \$100,000 \\ \text{Eligible premiums} \end{array} \times \begin{array}{c} 7.30\% \\ \text{Joint coverage} \\ \text{Age 65} \end{array} = \begin{array}{c} \$7,300 \\ \text{Initial GLIA} \end{array}$$

For each year that you wait to activate lifetime income, your GLIA grows by an income credit.

Here's an example of how the annual income credit is calculated:

$$\begin{array}{c} \$7,300 \\ \text{Initial GLIA} \end{array} \times \begin{array}{c} 8.5\% \\ \text{Income growth rate} \end{array} = \begin{array}{c} \$621 \\ \text{Income credit} \end{array}$$

Here's an example of how the GLIA is calculated when income is activated at the end of year five (assumes no withdrawals):

$$\begin{array}{c} \$7,300 \\ \text{Initial GLIA} \end{array} + \begin{array}{c} \$621 \times 5 \\ \text{Income credit x} \\ \text{deferral years} \end{array} = \begin{array}{c} \$10,403 \\ \text{Per year} \end{array}$$

Withdrawals other than the GLIA or a change in covered person(s) may affect the GLIA. See the product overview or brochure for details.

\* Income percentages and the income growth rate are periodically set by the company and may be different as of the date a contract is actually issued. Rates will be displayed within the contract and are guaranteed not to change.

Annuities are long-term products designed for retirement.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
